MANAGEMENT'S DISCUSSION AND ANALYSIS

The following commentary reviews the consolidated financial condition and consolidated results of operations of AgHeritage Farm Credit Services, ACA and its subsidiaries, AgHeritage Farm Credit Services, FLCA and AgHeritage Farm Credit Services, PCA. This discussion should be read in conjunction with both the unaudited consolidated financial information and related notes included in this Quarterly Report as well as Management's Discussion and Analysis included in our Annual Report for the year ended December 31, 2024 (2024 Annual Report).

Due to the nature of our financial relationship with AgriBank, FCB (AgriBank), the financial condition and results of operations of AgriBank materially impact our members' investment. To request free copies of AgriBank financial reports or additional copies of our report, contact us at:

FORWARD-LOOKING INFORMATION

Any forward-looking statements in this Quarterly Report are based on current expectations and are subject to uncertainty and changes in circumstances. Actual results may differ materially from expectations due to a number of risks and uncertainties. More information about these risks and uncertainties is contained in our 2024 Annual Report. We undertake no duty to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

AGRICULTURAL AND ECONOMIC CONDITIONS

We generally experienced good growing conditions and favorable harvest weather for the 2024 crop. Given these conditions, we generally had above average yields for crops grown in our area. However, recent crop prices relative to costs of production have caused cash flows to be strained for many borrowers. Expectations for the 2025 crop are similar to the prior year, and we expect most crop producers to have cash flow challenges if current conditions remain in place during 2025. Our borrowers generally had strong balance sheets going into this environment, which should continue to support credit quality. We do expect to have some decline in credit quality, but our expectations are that the decline will not be significant. Land values in our area are stable to higher.

LOAN PORTFOLIO

Loan Portfolio

Total loans were $2.5 billion at March 31, 2025, an increase of $37.7 million from December 31, 2024.

Portfolio Credit Quality

The credit quality of our portfolio declined slightly from December 31, 2024. Adversely classified loans increased to 2.7% of the portfolio at March 31, 2025, from 2.4% of the portfolio at December 31, 2024. Adversely classified loans are loans we have identified as showing some credit weakness according to our credit standards. We have considered portfolio credit quality in assessing the reasonableness of our allowance for credit losses on loans.

In certain circumstances, government agency guarantee programs are used to reduce the risk of loss. At March 31, 2025, $27.0 million of our loans were substantially guaranteed under these government programs.

Nonperforming Assets

Components of Nonperforming Assets

(dollars in thousands) As of:	**March 31, 2025**	December 31, 2024
Loans:		
Nonaccrual	**$ 6,759**	$ 5,102
Accruing loans 90 days or more past due	**--**	--
Total nonperforming loans	**6,759**	5,102
Other property owned	**239**	446
Total nonperforming assets	**$ 6,998**	$ 5,548
Total nonperforming loans as a percentage of total loans	**0.3%**	0.2%
Nonaccrual loans as a percentage of total loans	**0.3%**	0.2%
Current nonaccrual loans as a percentage of total nonaccrual loans	**33.6%**	56.4%
Total delinquencies as a percentage of total loans[1]	**1.4%**	0.3%

[1]Total delinquencies include accrual and nonaccrual loans 30 days or more past due.

Our nonperforming assets have increased from December 31, 2024, but remained at acceptable levels. Despite the increase in nonperforming assets, total nonperforming loans as a percentage of total loans were well within our established risk management guidelines.

The increase in nonaccrual loans was primarily due to several relationships with production and intermediate-term and real estate mortgage loans that transferred to nonaccrual during the first quarter of 2025. The increase was partially offset by payments received on two relationships with agribusiness and production and intermediate-term loans during the first quarter of 2025. Nonaccrual loans remained at an acceptable level at March 31, 2025, and December 31, 2024.

The increase in total delinquencies as a percentage of total loans was primarily due to several production and intermediate-term relationships with multiple loans that became past due during the period ended March 31, 2025.

Allowance for Credit Losses on Loans

The allowance for credit losses on loans is an estimate of expected credit losses in our portfolio. We determine the appropriate level of allowance for credit losses on loans based on a disciplined process and methodology that incorporates expected probabilities of default and loss given default based on historical portfolio performance, forecasts of future economic conditions, and management's judgment with respect to unique aspects of current and expected conditions that may not be contemplated in historical loss experience or forecasted economic conditions.

Allowance for Credit Losses on Loans and Coverage Ratios

The change in non-interest expense was primarily related to increases in loan servicing expense and salaries and employee benefits.

FUNDING, LIQUIDITY, AND CAPITAL

We borrow from AgriBank, under a note payable, in the form of a line of credit. Our note payable was scheduled to mature on May 31, 2026. However, it was renewed early for $3.0 billion with an origination date of May 1, 2025, and a maturity date of May 31, 2028. We intend to renegotiate the note payable no later than the maturity date. The repricing attributes of our line of credit generally correspond to the repricing attributes of our loan portfolio, which significantly reduces our market interest rate risk. However, we maintain some exposure to interest rates, primarily from loans to customers which may not have a component of our line of credit with an exact repricing attribute. Due to the cooperative structure of the Farm Credit System and as we are a stockholder of AgriBank, we expect this borrowing relationship to continue into the foreseeable future. We also fund our portfolio from equity.

The components of cost of funds associated with our note payable include:

- A marginal cost of debt component
- A spread component, which includes cost of servicing, cost of liquidity, and bank profit
- A risk premium component, if applicable

We were not subject to a risk premium at March 31, 2025, or December 31, 2024.

Total members' equity increased $10.9 million from December 31, 2024, primarily due to net income for the period, partially offset by patronage distribution accruals.

The Farm Credit Administration (FCA) Regulations require us to maintain minimums for our common equity tier 1, tier 1 capital, total capital, and permanent capital risk-based capital ratios. In addition, the FCA requires us to maintain minimums for our non-risk-adjusted ratios of tier 1 leverage and unallocated retained earnings and equivalents leverage. Refer to Note 6 in our 2024 Annual Report for a more complete description of these ratios.

Regulatory Capital Requirements and Ratios

As of:	March 31, 2025	December 31, 2024	Regulatory Minimums	Capital Conservation Buffer	Total
Risk-adjusted:					
Common equity tier 1 ratio	**15.6%**	15.8%	4.5%	2.5%	7.0%
Tier 1 capital ratio	**15.6%**	15.8%	6.0%	2.5%	8.5%
Total capital ratio	**15.9%**	16.1%	8.0%	2.5%	10.5%
Permanent capital ratio	**15.6%**	15.8%	7.0%	N/A	7.0%
Non-risk-adjusted:					
Tier 1 leverage ratio	**17.0%**	17.1%	4.0%	1.0%	5.0%
Unallocated retained earnings and equivalents leverage ratio	**16.9%**	16.9%	1.5%	N/A	1.5%

Capital ratios are directly impacted by the changes in capital, as more fully explained in this section, the changes in assets, as discussed in the Loan Portfolio section, and off-balance sheet commitments, as disclosed in Note 10 in our 2024 Annual Report.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited Consolidated Financial Statements contain all adjustments necessary for a fair presentation of the interim financial information and conform to generally accepted accounting principles in the United States of America (GAAP) and the prevailing practices within the financial services industry. This interim Quarterly Report is prepared based upon statutory and regulatory requirements and in accordance with GAAP. However, certain disclosures required by GAAP are omitted. The results of the three months ended March 31, 2025, are not necessarily indicative of the results to be expected for the year ending December 31, 2025. The interim financial statements and the related notes in this Quarterly Report should be read in conjunction with the Consolidated Financial Statements and related notes included in our Annual Report for the year ended December 31, 2024 (2024 Annual Report).

Principles of Consolidation

The Consolidated Financial Statements present the consolidated financial results of AgHeritage Farm Credit Services, ACA and its subsidiaries AgHeritage Farm Credit Services, FLCA and AgHeritage Farm Credit Services, PCA. All material intercompany transactions and balances have been eliminated in consolidation.

Recently Issued or Adopted Accounting Pronouncements

We have assessed the potential impact of accounting standards that have been issued by the Financial Accounting Standards Board (FASB) and have determined the following standard to be applicable to our business. While we are a nonpublic business entity, our financial results are closely related to the performance of the combined Farm Credit System. Therefore, we typically adopt accounting pronouncements in alignment with other System institutions.

Standard and effective date	Description	Adoption status and financial statement impact
In December 2023, the FASB issued Accounting Standards Update 2023-09, “Income Taxes (Topic 740): Improvements to Income Tax Disclosures.” This guidance is effective for annual periods beginning after December 15, 2025.	This guidance requires more transparency about income tax information through improvements to income tax disclosures. The improvements applicable to our Association will require adding information by state jurisdiction to the rate reconciliation and income taxes paid disclosures.	We expect to adopt the standard as of January 1, 2026. The adoption of this guidance is not expected to have a material impact on our financial statements, but will modify certain disclosures.

NOTE 2: LOANS AND ALLOWANCE FOR CREDIT LOSSES ON LOANS

Throughout Note 2 accrued interest receivable on loans of $41.2 million at March 31, 2025, and $47.8 million at December 31, 2024, has been excluded from the amortized cost of loans and is presented in “Accrued interest receivable” in the Consolidated Statements of Condition.

Loan Modifications Granted to Borrowers Experiencing Financial Difficulty

Included within our loans are loan modifications; some of which are granted to borrowers experiencing financial difficulty. Modifications are one or a combination of principal forgiveness, interest rate reduction, other-than-insignificant term extension, or other-than-insignificant payment deferrals. Other-than-insignificant term extensions are defined as those greater than or equal to six months. Covenant waivers and modifications of contingent acceleration clauses are not considered term extensions. Other-than-insignificant payment deferrals are defined as cumulative or individual payment delays greater than or equal to six months. Loans that both modify and are paid off or charged-off during the period, resulting in an amortized cost balance of zero at the end of the period, are not included in the disclosures below.

Accrued interest receivable related to loan modifications granted to borrowers experiencing financial difficulty was not material at March 31, 2025, or 2024.

Additional commitments were $2.4 million at March 31, 2025, and $4.7 million at December 31, 2024, to lend to borrowers experiencing financial difficulty whose loans were modified during the three months ended March 31, 2025, and during the year ended December 31, 2024, respectively.

Allowance for Credit Losses

Our loan portfolio is divided into segments primarily based on loan type which are the segments used to estimate the allowance for credit losses. As our lending authorities limit the types of loans we can originate, our portfolio is concentrated in the agriculture sector. The credit risk associated with each of our portfolio segments includes a strong correlation to agricultural commodity prices and input costs. Specifically for our real estate mortgage segment, the value of agricultural land that serves as collateral is a key risk characteristic. Additionally, unemployment rates and gross domestic product levels are additional key risk characteristics attributable to our portfolio. We consider these characteristics, among others, in assigning internal risk ratings and forecasting credit losses on our loan portfolio and related unfunded commitments.

We develop our reasonable and supportable forecast by considering a multitude of macroeconomic variables. Our forecasts of United States (U.S.) net farm income, U.S. real gross domestic product, and the U.S. unemployment rate represent the key macroeconomic variables that most significantly affect the estimate of the allowance for credit losses on loans and unfunded commitments.

We utilize a single macroeconomic scenario in the estimate of the allowance for credit losses on loans and unfunded commitments which represents the most probable forecasted outcome. Subsequent changes in the macroeconomic forecasts will be reflected in the provision for credit losses in future periods.

Changes in Allowance for Credit Losses

(in thousands) Three months ended March 31,	**2025**	2024
Allowance for Credit Losses on Loans		
Balance at beginning of period	**$ 7,014**	$ 5,925

Balance at end of period	**$ 1,508**	$ 707
Total allowance for credit losses	**$ 8,715**	$ 7,491

The allowance for credit losses on loans did not change significantly from December 31, 2024.

NOTE 3: CONTINGENCIES AND COMMITMENTS

In the normal course of business, we have various contingent liabilities and commitments outstanding, primarily commitments to extend credit, which may not be reflected in the Consolidated Financial Statements. We do not anticipate any material losses because of these contingencies or commitments.

We may be named as a defendant in certain lawsuits or legal actions in the normal course of business. At the date of these Consolidated Financial Statements, our management team was not aware of any material actions. However, management cannot ensure that such actions or other contingencies will not arise in the future.

Refer to Note 10 in our 2024 Annual Report for additional detail regarding contingencies and commitments.

NOTE 4: FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Accounting guidance also establishes a fair value hierarchy, with three input levels that may be used to measure fair value. Refer to Note 2 in our 2024 Annual Report for a more complete description of the three input levels.

We did not have any assets or liabilities measured at fair value on a recurring basis at March 31, 2025, or December 31, 2024.

Non-Recurring Basis

We may be required, from time to time, to measure certain assets at fair value on a non-recurring basis.

Valuation Techniques

Loans: Represents the carrying amount of loans evaluated individually for credit losses and deemed to be collateral dependent. The carrying value amount is based on the estimated value of the underlying collateral, less costs to sell. When the fair value of the collateral, less costs to sell, is less than the amortized cost basis of the loan, a specific allowance for expected credit losses is established. Costs to sell represent transaction costs and are not included as a component of the collateral's estimated fair value. Typically, the process requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters and, therefore, are classified as Level 3 fair value measurements.

Other Property Owned: Represents the fair value of foreclosed assets measured based on the collateral value, which is generally determined using appraisals, or other indications based on sales of similar properties. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. If the process uses observable market-based information, they are classified as Level 2. If the process requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the property and other matters, they are classified as Level 3.

NOTE 5: SUBSEQUENT EVENTS

We have evaluated subsequent events through May 9, 2025, which is the date the Consolidated Financial Statements were available to be issued. There have been no material subsequent events that would require recognition in our Quarterly Report or disclosure in the Notes to Consolidated Financial Statements.
